Correction for ‘Liquid marble-based digital microfluidics – fundamentals and applications’ by Chin Hong Ooi *et al.*, *Lab Chip*, 2021, DOI: 10.1039/d0lc01290d.

There was an error in the Introduction section of this article. In the sentence “As a liquid marble is perfectly non-wetting, it can easily roll on a solid surface,^{3,4}” only ref. 4 should be cited.

In addition, ref. 3 in the article was incorrect. The corrected ref. 3 is shown below as ref. ¹.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
