The authors regret that in the original manuscript affiliation *a* was listed incorrectly. The correct affiliation is as displayed herein.

The authors also regret that units in the sentence below were incorrect in the original article. The correct units are mentioned here:

"We monitored the zeta potential of 1-Nap and 2-Nap, which exhibited a similar positive charge at 11.5 mV and 13.6 mV, respectively (Fig. S13[†])."

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
