Correction for 'NIR laser scanning microscopy for photophysical characterization of upconversion nanoparticles and nanohybrids' by Juan Ferrera-González *et al.*, *Nanoscale*, 2021, **13**, 10067–10080, DOI: 10.1039/D1NR00389E.

The authors regret that in the original manuscript, Fig. 2a was incorrect. The light path is always perpendicular to the sample surface due to the use of a flat convex lens. Fig. 2a has now been revised and is shown below.

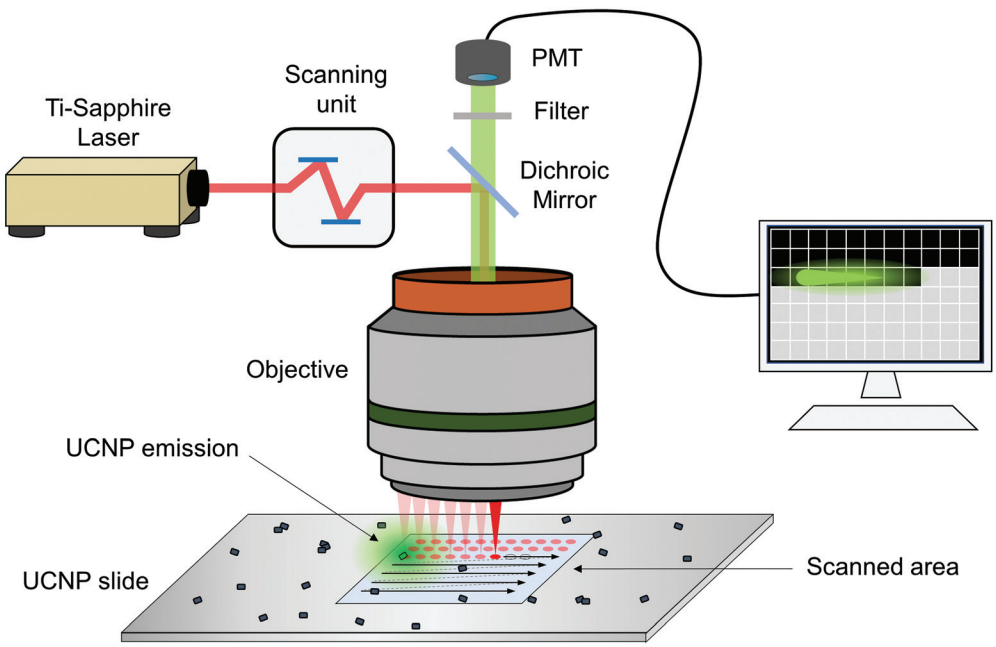

Fig. 2 Scheme and visual representation of the time-resolved principle of NIR-LSM. (a) NIR-LSM scheme.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
