Correction: SERS-based nanostrategy for rapid anemia diagnosis

Pir Muhammad, ^a Sumaira Hanif, ^a Jiliang Yan,^{a,b} Fawad Ur Rehman, ^a Jiefei Wang, ^a Maqbool Khan,^c Roger Chung,^d Albert Lee,^d Meng Zheng, ^{*a} Yuling Wang ^{*e} and Bingyang Shi ^{*a,d}

 DOI: 10.1039/d1nr90196f
rsc.li/nanoscale

 Correction for 'SERS-based nanostrategy for rapid anemia diagnosis' by Pir Muhammad *et al.*, *Nanoscale*, 2020, **12**, 1948–1957, DOI: 10.1039/C9NR09152A.

The authors regret that in the original manuscript, Fig. 4C contained some errors caused by duplicate spectra data being incorrectly inserted into the figure. Three incorrect spectra were displayed for Ni^{2+} , Ba^{2+} and Ti^{3+} . A correct version of Fig. 4C with the associated caption is as displayed below:

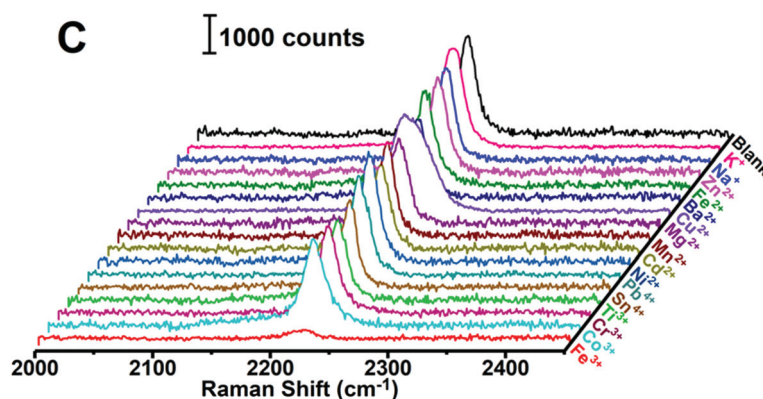

Fig. 4 (C) Changes in SERS spectra of cAgNPs before and after addition of the target Fe^{3+} (1 μM) or various metal ions (1 mM) in aqueous at a 1 : 1 ratio v/v.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
