Correction for 'Novel enzyme-functionalized covalent organic frameworks for the colorimetric sensing of glucose in body fluids and drinks' by Jie-Yu Yue et al., *Mater. Chem. Front.*, 2021, 5, 3859–3866, DOI: 10.1039/D1QM00314C.

The authors regret that the equation for calculating the Michaelis–Menten constant (K_m) and maximum reaction rate (V_{max}) was incorrect. The correct equation is as follows:

$$\frac{1}{V} = \frac{K_m}{V_{max}} \frac{1}{C} + \frac{1}{V_{max}}$$

where V is the initial reaction rate and C is the concentration of glucose.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
