Retraction of 'Wavelength modulation of ZnO nanowire based organic light-emitting diodes with ultraviolet electroluminescence' by Runze Chen *et al.*, *RSC Adv.*, 2020, 10, 23775–23781, DOI: 10.1039/D0RA04058D.

We, the named authors, hereby wholly retract this *RSC Advances* article due to a calibration error in the CVD tool used when fabricating the inverted UV-OLED devices. As a result, the subsequent data collected is not reliable and the conclusions of this paper are not supported.
