Correction for 'Synthesis and structural characterization of  $CO_2$ -soluble oxidizers [Bu<sub>4</sub>N]BrO<sub>3</sub> and [Bu<sub>4</sub>N] ClO<sub>3</sub> and their dissolution in cosolvent-modified  $CO_2$  for reservoir applications' by Katherine L. Hull et al., RSC Adv., 2020, **10**, 44973–44980, DOI: 10.1039/D0RA09563J.

The authors regret that the value for the solubility of  $[Bu_4N]BrO_3$  in the last sentence of the Results and discussion section was given incorrectly.

In the sentence beginning "Notably, the solubility of  $[Bu_4N]BrO_3$  achieved..." on page 44978, the corrected sentence should read "Notably, the solubility of  $[Bu_4N]BrO_3$  achieved (>0.12 wt%) with ethanol cosolvent significantly exceeds the typical concentrations utilized in the application ( $\sim$ 0.03 wt%)".

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
