## Correction: A microfluidic electrochemical sensing platform for *in situ* detection of trace cadmium ions

Yang Yuan,<sup>ab</sup> Hui Jia<sup>\*ac</sup> and Jie Wang<sup>\*ac</sup>

Correction for 'A microfluidic electrochemical sensing platform for *in situ* detection of trace cadmium ions' by Yang Yuan *et al.*, *Anal. Methods*, 2022, <https://doi.org/10.1039/d2ay01016j>.

The authors regret that there was an error in the reported limit of detection in Section 3.7 "Performance analysis of detection chips" in the original article. The text originally read: "The limit of detection was  $0.1 \mu\text{g L}^{-1}$  ( $S/N = 3$ ) and the deposition time was 250 s." This sentence should read: "The limit of detection was  $0.03 \mu\text{g L}^{-1}$  ( $S/N = 3$ ) and the deposition time was 250 s."

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
