Correction for 'Implantation of a functional TEMPO-hydrogel induces recovery from rat spinal cord transection through promoting nerve regeneration and protecting bladder tissue' by Yu Zhang *et al.*, *Biomater. Sci.*, 2020, 8, 1695–1701, <https://doi.org/10.1039/C9BM01530B>.

The authors regret that an incorrect panel was displayed in Fig. 2D. The corrected Fig. 2 is as shown below.

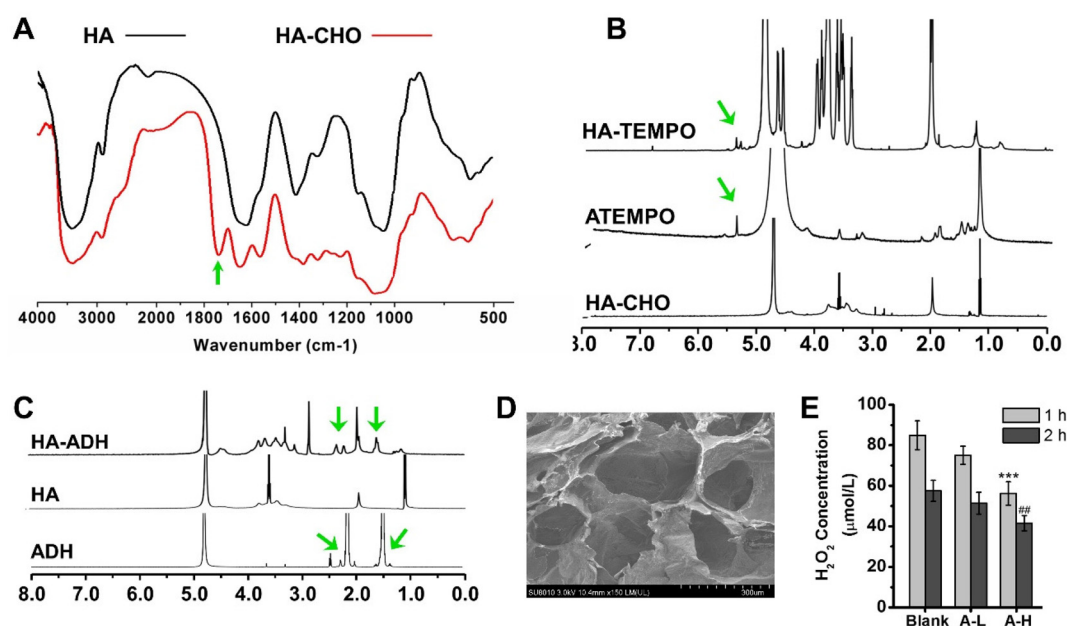

Fig. 2 Characterization and *in vitro* evaluation of the materials and the hydrogel. (A) FTIR examination of HA-CHO. (B and C) HA-TEMPO (B) and HA-ADH (C) were detected by ¹H NMR. (D) Scanning electron microscopy (SEM) observation of the porous structure of the TEMPO-hydrogel. (E) Evaluation of the ROS neutralization effect of the TEMPO-hydrogel in an oxidative microenvironment simulated with 0.1 mM H₂O₂ in cell culture medium.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
