Correction for 'Selective oxidation of alcohols on hydrogen titanate nanotubes under visible light irradiation: relationship between nanostructure and catalytic activity' by Juan Yang *et al.*, *Catal. Sci. Technol.*, 2016, 6, 7604–7614, DOI: <https://doi.org/10.1039/C6CY01345G>

The authors regret that in Fig. 8B, S5 and S6 of the original article the ESR spectra of 'H-TNT in dark' and 'H-TNT with light' were duplicates, due to an error in importing the data. The spectra were remeasured, the correct version of Fig. 8 is shown below and the ESI has been updated with the corrected Fig. S5 and Fig. S6. An independent expert has viewed the corrected images and has concluded that they are consistent with the discussions and conclusions presented.

The authors apologise for the error.
