Correction: Challenges for the future of tandem photovoltaics on the path to terawatt levels: a technology review

Filipe Martinho

Correction for 'Challenges for the future of tandem photovoltaics on the path to terawatt levels: a technology review' by Filipe Martinho, *Energy Environ. Sci.*, 2021, **14**, 3840–3871, DOI: 10.1039/D1EE00540E.

The graphical images for Fig. 17 and 18 were swapped. Furthermore, the curve labels (the R_s values) in Fig. 17a were in the wrong order. Fig. 17 and 18 should have appeared as follows:

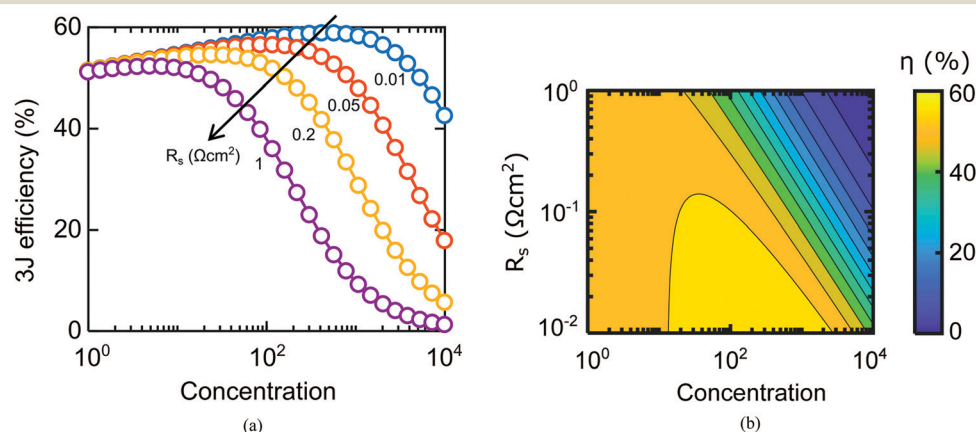

Fig. 17 (a) Detailed-balance efficiency limit of a triple-junction tandem as a function of light concentration for different values of the series resistance; (b) corresponding efficiency color map for the same system. Both figures adapted from ref. 146 with permission, copyright © 2019 National Academy of Sciences.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.

Fig. 18 Notable examples of different monolithic perovskite/Si tandem configurations organized by the type of recombination junction. The layers are not to scale. Expanded based on the work from Chang *et al.*¹²⁵ with permission, copyright © 2020 John Wiley & Sons.
