## Correction: *N*-Acetylglucosamine as a platform chemical produced from renewable resources: opportunity, challenge, and future prospects

Shuling Cao,<sup>a,b</sup> Yuxi Liu,<sup>a</sup> Linming Shi,<sup>a</sup> Wanbin Zhu<sup>\*a,b</sup> and Hongliang Wang<sup>\*a,b</sup>

Correction for '*N*-acetylglucosamine as a platform chemical produced from renewable resources: opportunity, challenge, and future prospects' by Shuling Cao *et al.*, *Green Chem.*, 2022, **24**, 493–509, DOI: 10.1039/D1GC03725K.

In the original version of this Critical Review, the schematics of  $\alpha$ -chitin and  $\beta$ -chitin in Fig. 6 were reversed. The corrected Fig. 6 is as follows, and replaces the version originally published in the Critical Review.

Fig. 6 Schematic representation of the polymorphic forms of (a)  $\alpha$ -chitin, (b)  $\beta$ -chitin, and (c)  $\gamma$ -chitin.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
