Correction: Estimating the cooperativity of PROTAC-induced ternary complexes using ¹⁹F NMR displacement assay

Guilherme Vieira de Castro and Alessio Ciulli **

DOI: 10.1039/d1md90045e

rsc.li/medchem

Correction for 'Estimating the cooperativity of PROTAC-induced ternary complexes using ¹⁹F NMR displacement assay' by Guilherme Vieira de Castro *et al., RSC Med. Chem.*, 2021, **12**, 1765–1770, DOI: 10.1039/D1MD00215E.

The authors regret there was an error in their article on page 1768 (right column, 6 lines above Fig. 5). The sentence "CMP98 (trans-cis) which can only engage one VHL complex at a time, and the non-binding control CMP99 (cis-cis)." should read instead: "CMP99 (trans-cis) which can only engage one VHL complex at a time, and the non-binding control CMP98 (cis-cis)."

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
