Correction for 'The importance of phase equilibrium for doping efficiency: iodine doped PbTe' by James Male *et al.*, *Mater. Horiz.*, 2019, **6**, 1444–1453, DOI: 10.1039/C9MH00294D.

The authors regret an error in eqn (2) in the originally published manuscript. The correct equation is presented below.

$$2y - x = n_H * V_m \quad (2)$$

This does not affect the results and discussions related to eqn (2).

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
