Retraction: Structural characterization of *Mesobuthus martensii* Karsch peptides and anti-inflammatory potency evaluation in human vascular endothelial cells

Laura Fisher

DOI: 10.1039/d2ra90042d

rsc.li/rsc-advances

Retraction of 'Structural characterization of *Mesobuthus martensii* Karsch peptides and anti-inflammatory potency evaluation in human vascular endothelial cells' by Man Zheng *et al.*, *RSC Adv.*, 2019, 9, 19365–19374, <https://doi.org/10.1039/C9RA01609K>.

The Royal Society of Chemistry hereby wholly retracts this *RSC Advances* article due to a significant amount of unattributed text overlap with articles by different author groups, including articles published in *Acta Pharmacologica Sinica* by Yu-ping Zhu *et al.*¹ and *RSC Advances* by Zhuo Liu *et al.*²

Jie Liu opposes the retraction. The other authors have been informed but have not responded to any correspondence regarding the retraction.

Signed: Laura Fisher, Executive Editor, *RSC Advances*

Date: 29th March 2022
