Correction for 'Visible-light-mediated Minisci C-H alkylation of heteroarenes with unactivated alkyl halides using O_2 as an oxidant' by Jianyang Dong et al., Chem. Sci., 2019, 10, 976–982, https://doi.org/10.1039/C8SC04892D.

The authors regret that the regioselectivity of product 36 in Table 3 was incorrect. The correct structure, a regioisomer of the originally proposed structure, is shown below.

Table 3 within the original manuscript should therefore be as follows:

[&]quot;State Key Laboratory of Elemento-Organic Chemistry, Research Institute of Elemento-Organic Chemistry, College of Chemistry, Nankai University, Tianjin 300071, People's Republic of China. E-mail: wangqm@nankai.edu.cn

^bCollaborative Innovation Center of Chemical Science and Engineering (Tianjin), Tianjin 300071, People's Republic of China

Table 3 Scope of the reaction with respect to the N-heteroarene^a

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.

^a Reactions were performed on a 0.3 mmol scale. Isolated yields are given.
