Correction: A continuum membrane model can predict curvature sensing by helix insertion

Yiben Fu,^a Wade F. Zeno,^b Jeanne C. Stachowiak^c and Margaret E. Johnson^{*a}

Correction for 'A continuum membrane model can predict curvature sensing by helix insertion' by Yiben Fu *et al.*, *Soft Matter*, 2021, **17**, 10649–10663, DOI: 10.1039/D1SM01333E.

The authors regret the omission of some funders from the acknowledgements section in the original article. The Acknowledgements section should read as follows:

MEJ gratefully acknowledges funding from an NIH MIRA R35GM133644, and an NSF CAREER Award 1753174. JCS was supported by R35GM139531 from the National Institutes of Health and by the Welch Foundation F-2047. We acknowledge supercomputing resources provided by ARCH at Johns Hopkins University, and the NSF-MRI funded (Award 1920103) rockfish cluster. We thank Dr Alexander Sodt and Prof Brian Camley for helpful discussions. We also thank Prof Tobias Baumgart for kindly sharing data.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
