Correction: Systematic shape evolution of Co$_3$O$_4$ nanocrystals from octahedra to spheres under the influence of C$_2$O$_4$$^{2-}$ and PVP

Min Kang, Hai Zhou,* Dong Wu and Baoliang Lv

Correction for ‘Systematic shape evolution of Co$_3$O$_4$ nanocrystals from octahedra to spheres under the influence of C$_2$O$_4$$^{2-}$ and PVP’ by Min Kang et al., CrystEngComm, 2016, 18, 9299–9306, https://doi.org/10.1039/C6CE02106A.

The authors regret that Fig. 1, 5 and 6 were incorrect in the original article. The authors misused the SEM images of two samples, which were prepared in a series of comparative experiments with similar reaction conditions. The correct versions of Fig. 1, 5 and 6 are shown below.

![SEM images of samples obtained at different amounts of PVP: (a) 2.0 μmol, (b) 2.5 μmol, (c) 3.0 μmol, (d) 6.0 μmol, (e) 8.0 μmol, (f) 10 μmol, (g) 11 μmol, (h) 12 μmol and (i) without C$_2$O$_4$$^{2-}$.](image_url)
Fig. 5 The complete shape evolution process of Co₃O₄ nanoparticles.

Fig. 6 SEM images of samples obtained at molar ratios of C₂O₄²⁻ to Co²⁺: (a) 0.10, (b) 0.15, (c) 0.20, (d) 0.30, (e) 0.50 and (f) 0.80.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
