A journal at the forefront of the design and understanding of solid-state and crystalline materials

[rsc.li/crystengcomm](https://rsc.li/crystengcomm)

The Royal Society of Chemistry is the world's leading chemistry community. Through our high impact journals and publications we connect the world with the chemical sciences and invest the profits back into the chemistry community.

# CrystEngComm

A journal at the forefront of the design and understanding of solid-state and  
crystalline materials

[rsc.li/crystengcomm](http://rsc.li/crystengcomm)

*CrystEngComm* is the forum for the design and understanding of crystalline materials.  
We welcome studies on the investigation of molecular behaviour within crystals, control  
of nucleation and crystal growth, engineering of crystal structures, and construction of  
crystalline materials with tuneable properties and functions.

## Editorial Board

### Chair

Pierangelo Metrangolo, Politecnico di Milano,  
Italy

### Associate Editors

Susan Bourne, University of Cape Town,

## Information for Authors

Full details on how to submit material for publication in  
CrystEngComm are given in the Instructions for Authors (available  
from <http://www.rsc.org/authors>). Submissions should be made via the  
journal's homepage: [rsc.li/crystengcomm](http://rsc.li/crystengcomm). Submissions: The journal  
welcomes submissions of manuscripts for publication as Full Papers,  
Communications and Highlights. Full Papers and Communications  
should describe original work of high quality and impact on the design  
and understanding of crystalline materials. We welcome studies that  
highlight the novel properties or applications (or potential properties/  
applications) of the materials studied.

Authors may reproduce/republish portions of their published  
contribution without seeking permission from the Royal Society of  
Chemistry, provided that any such republication is accompanied by  
an acknowledgement in the form: (Original Citation)–Reproduced by  
permission of the Royal Society of Chemistry.
