Correction for 'Retracted Article: Monodisperse CuB₂₃ nanoparticles grown on graphene as highly efficient catalysts for unactivated alkyl halide Heck coupling and levulinic acid hydrogenation' by Shi Yan Fu *et al.*, *Catal. Sci. Technol.*, 2015, 5, 1638–1649, <https://doi.org/10.1039/C4CY01331J>.

Following the retraction of this *Catalysis Science & Technology* article,¹ the Royal Society of Chemistry has been contacted by the Institute of Coal Chemistry, Chinese Academy of Sciences who have informed the editor that the results reported in the article have no relation with the research conducted by the second author, Yuan Zhi Li, while they were affiliated with the Institute of Coal Chemistry, Chinese Academy of Sciences. Therefore, they have requested that the Institute of Coal Chemistry, Chinese Academy of Sciences affiliation, listed as affiliation *c* in the original article, is deleted. The Royal Society of Chemistry is therefore publishing this correction notice to update the affiliation list of the retracted article as shown here.

The authors have not responded to correspondence regarding the wording of the notice.
