FARADAY DISCUSSIONS

Volume 243, 2023

The Faraday Community for Physical Chemistry of the Royal Society of Chemistry, previously the Faraday Society, was founded in 1903 to promote the study of sciences lying between chemistry, physics and biology.

Sustainable Nitrogen Activation

Faraday Discussions

www.rsc.org/faraday_d

A General Discussion on Sustainable Nitrogen Activation was held in London, UK and online on the 27th, 28th and 29th of March 2023.

The Royal Society of Chemistry is the world's leading chemistry community. Through our high impact journals and publications we connect the world with the chemical sciences and invest the profits back into the chemistry community.
