

# Industrial Chemistry & Materials

An international journal of significant innovative research and major technological breakthroughs in all aspects of industrial chemistry and materials  
[rsc.li/icm](http://rsc.li/icm)

The Royal Society of Chemistry is the world's leading chemistry community. Through our high impact journals and publications we connect the world with the chemical sciences and invest the profits back into the chemistry community.

## IN THIS ISSUE

ISSN 2755-2500 CODEN ICMNCZ 1(2) 149-272 (2023)

### Cover

See Ji Yang,  
Matthias Beller *et al.*,  
pp. 155-174.  
Image reproduced by  
permission of Matthias Beller  
from *Ind. Chem. Mater.*,  
2023, 1, 155.

## MINI REVIEWS

155

### Industrially applied and relevant transformations of 1,3-butadiene using homogeneous catalysts

Ji Yang,\* Peng Wang, Helfried Neumann, Ralf Jackstell and Matthias Beller\*

175

### Understanding the charging of supercapacitors by electrochemical quartz crystal microbalance

Liang Niu, Long Yang, Jingjing Yang, Ming Chen, Liang Zeng, Pan Duan, Taizheng Wu, Emmanuel Pameté, Volker Presser and Guang Feng\*

## Editorial Staff

Managing Editor  
Jing Kong

Assistant Editors  
Huixian Dong, Xitong Wang

Content Development Editor  
Nancy Qin

Editorial Production Manager  
Sarah Whitbread

Regional Publisher  
Guanqun Song

Publisher  
Neil Hammond

Journals Launch Manager  
Kathryn Gempf

For queries about submitted papers, please contact Sarah Whitbread Editorial Production Manager, in the first instance. E-mail: [icmprod@rsc.org](mailto:icmprod@rsc.org)

For pre-submission queries, please contact Jing Kong, Managing Editor. Email: [icm@rsc.org](mailto:icm@rsc.org)

ICM (Print ISSN 2755-2608; Online ISSN 2755-2500) is published 4 times a year by the Royal Society of Chemistry, Thomas Graham House, Science Park, Milton Road, Cambridge, CB4 0WF, UK.

ICM is a Gold Open Access journal and all articles are free to read

Whilst this material has been produced with all due care, the Royal Society of Chemistry cannot be held responsible or liable for its accuracy and completeness, nor for any consequences arising from any errors or the use of the information contained in this publication. # Industrial Chemistry & Materials

[rsc.li/icm](http://rsc.li/icm)

Industrial Chemistry & Materials (ICM) publishes significant innovative research and major technological breakthroughs in all aspects of industrial chemistry and materials, with a particular focus on the important innovation of low-carbon chemical industry, energy and functional materials.

## Editor-in-Chief

Suojiang Zhang, Institute of Process Engineering, CAS, China

## Associate Editor

Maohong Fan, University of Wyoming, USA  
Chao Lu, Zhengzhou University/Beijing University of Chemical Technology, China  
Anja V. Mudring, Aarhus University, Denmark

Rong Sun, Shenzhen Institute of Advanced Electronic Materials, CAS, China  
Quanhong Yang, Tianjin University, China  
Shouliang Yi, National Energy Technology Laboratory, USA

Tierui Zhang, Technical Institute of Physics and Chemistry, CAS, China  
Xiangping Zhang, Institute of Process Engineering, CAS, China

## Advisory board

Matthias Beller, LIKAT Rostock, Germany  
Xianhe Bu, Nankai University, China  
Yu Fang, Shaanxi Normal University, China  
Jerzy Leszczynski, Jackson State University, USA

Qilong Ren, Zhejiang University, China  
Blake A. Simmons, Lawrence Berkeley National Laboratory, USA  
Chunming Xu, China University of Petroleum, China

Donghui Zhang, Dalian Institute of Chemical Physics, CAS, China

## Editorial board members

Santiago Aparicio, University of Burgos, Spain  
Hongbin Cao, Institute of Process Engineering, CAS, China  
George Zheng Chen, University of Nottingham, UK  
Liwei Chen, Shanghai Jiao Tong University, China  
Walid Daoud, City University of Hong Kong, China  
Shoubhik Das, University of Antwerp, Belgium  
Xianfeng Fan, University of Edinburgh, UK  
Mara G. Freire, University of Aveiro, Portugal  
Feng Gao, Linköping University, Sweden  
Yanlong Gu, Huazhong University of Science and Technology, China  
Ruilan Guo, University of Notre Dame, USA  
Yu Han, King Abdullah University of Science and Technology, Saudi Arabia  
Niklas Hedin, Stockholm University, Sweden  
Peter Hesemann, University of Montpellier, France  
John D. Holbrey, Queen's University Belfast, UK  
Xu Hou, Xiamen University, China  
Yongsheng Hu, Institute of Physics, CAS, China  
Anker Degn Jensen, Technical University of Denmark, Denmark

Xiaoyan Ji, Lulea University of Technology, Sweden  
Arjan W. Kleij, Institute of Chemical Research of Catalonia, Spain  
Changzhi Li, Zhejiang University, China  
Xianfeng Li, Dalian Institute of Chemical Physics, CAS, China  
Yingwei Li, South China University of Technology, China  
Di-Jia Liu, Argonne National Laboratory, USA  
Jianmei Lu, Soochow University, China  
Xiang Ma, East China University of Science and Technology, China  
Anton Middelberg, The University of Adelaide, Australia  
Kotohiro Nomura, Tokyo Metropolitan University, Japan  
Lijia Pan, Nanjing University, China  
Srikanth Pilla, Clemson University, USA  
Albert Poater, University of Girona, Spain  
Jieshan Qiu, Beijing University of Chemical Technology, China  
Mark B. Shiflett, University of Kansas, USA  
Weiqun Shi, Institute of High Energy Physics, CAS, China  
Seema Singh, Joint BioEnergy Institute, USA

Zhi Sun, Institute of Process Engineering, CAS, China  
Atsushi Urakawa, Delft University of Technology, Netherlands  
Xiangjian Wan, Nankai University, China  
Guoxiu Wang, University of Technology Sydney, Australia  
Jianguo Wang, Zhejiang University of Technology, China  
Yapei Wang, Renmin University of China, China  
Yuen Wu, University of Science and Technology of China, China  
Qun Xu, Zhengzhou University, China  
Yijun Xu, Fuzhou University, China  
Feng Yan, Soochow University, China  
Chunxia Zhao, The University of Adelaide, Australia  
Huijun Zhao, Griffith University, Australia  
Haitao Zhang, Institute of Process Engineering, CAS, China  
Xin Zhang, Institute of Process Engineering, CAS, China  
Ying Zhang, University of Science and Technology of China, China  
Gengfeng Zheng, Fudan University, China  
Ying Zheng, Western University, Canada

## Information for Authors

Full details on how to submit material for publication in ICM are given in the Instructions for Authors (available from <https://www.rsc.org/journals-books-databases/about-journals/industrial-chemistry-materials>). Submissions should be made via the journal's homepage: [rsc.li/icm](http://rsc.li/icm)

Authors may reproduce/republish portions of their published contribution without seeking permission from the Royal Society of Chemistry, provided that any such republication is accompanied by an acknowledgement in the form: (Original Citation)–Reproduced by permission of the Royal Society of Chemistry.

This journal is owned by the © Institute of Process Engineering, Chinese Academy of Sciences, China 2022.

Apart from fair dealing for the purposes of research or private study for non-commercial purposes, or criticism or review, as permitted under the Copyright, Designs and Patents Act 1988 and the Copyright and Related Rights Regulation 2003, this publication may only be reproduced, stored or transmitted, in any form or by any means, with the prior permission in writing of the Publishers or in the case of reprographic reproduction in accordance with the terms of licences issued by the Copyright Licensing Agency in the UK. US copyright law is applicable to users in the USA.  The paper used in this publication meets the requirements of ANSI/NISO Z39.48–1992 (Permanence of Paper). Registered charity number: 207890

## REVIEWS

188

### Catalytic conversion network for lignocellulosic biomass valorization: a panoramic view

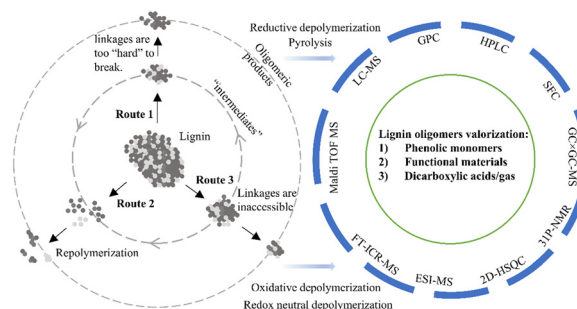

Shenyu Wang, Aohua Cheng, Fanhua Liu, Junjie Zhang, Tao Xia, Xiang Zeng, Wei Fan\* and Ying Zhang\*

207

### Perspective on oligomeric products from lignin depolymerization: their generation, identification, and further valorization

Yinglei Han, Blake A. Simmons and Seema Singh\*

224

### Ionic skin: from imitating natural skin to beyond

Zhiwu Chen and Yapei Wang\*

## PAPERS

240

### Understanding the interaction mechanism of carbazole/anthracene with *N,N*-dimethylformamide: NMR study substantiated carbazole separation

Hui Cao, Mengyu Dou, Zexiang Lyu, Yingxiang Wang, Christian Marcus Pedersen and Yan Qiao\*

247

### Preparation of yolk-shell urchin-like porous $\text{Co}_3\text{O}_4/\text{NiO}@\text{C}$ microspheres with excellent lithium storage performance

Linhe Yu, Qihao Yang, Guozhen Zhu\* and Renchao Che\*

254

### Large-scale direct regeneration of $\text{LiFePO}_4@\text{C}$ based on spray drying

Yongxing Zou, Jinwei Cao, Hao Li, Wanbao Wu, Yihong Liang and Jiaheng Zhang\*

262

### Theoretical insights into $\text{NH}_3$ absorption mechanisms with imidazolium-based protic ionic liquids

Wenhui Tu, Shaojuan Zeng,\* Ying Bai, Xiaochun Zhang, Haifeng Dong and Xiangping Zhang\*
