PERSPECTIVE

832

Casting light on molecular motions: controlling optical signal outputs of mechanically interlocked molecules

Ruirui Gu, Cai-Xin Zhao and Da-Hui Qu*

PAPERS

842

Alignment and photooxidation dynamics of a perylene diimide chromophore in lipid bilayers

Novitasari Sinambela, Richard Jacobi,
David Hernández-Castillo, Elisabeth Hofmeister,
Nina Hagmeyer, Benjamin Dietzek-Ivanšić,
Leticia González* and Andrea Pannwitz*

Information for Authors

Full details on how to submit material for publication in MSDE are given in the Instructions for Authors (available from <http://www.rsc.org/authors>).

Submissions should be made via the journal's homepage: rsc.li/molecular-engineering. Submissions: The journal welcomes submissions of manuscripts for publication as Review Articles and Minireviews. Full Papers and Communications should describe original work of high quality and impact.

Additional details are available from the Editorial Office or <http://www.rsc.org/authors>

Authors may reproduce/republish portions of their published contribution without seeking permission from the Royal Society of Chemistry, provided that any such republication is accompanied by an acknowledgement in the form: (Original Citation)–Reproduced by permission of the Royal Society of Chemistry.
