Correction for 'Analysis of N-glycosylation protein of Kashin-Beck disease chondrocytes derived from induced pluripotent stem cells based on label-free strategies with LC-MS/MS' by Sen Wang et al., Mol. Omics, 2023, https://doi.org/10.1039/d3mo00018d.

The authors regret that the caption for Fig. 4a was given incorrectly. It should read "Fig. 4 (a) The KEGG pathways and enrichment analysis of differential glycoproteins from KBD-iPSC-chondrocytes and normal-iPSC-chondrocytes. The ordinate represents the name of the KEGG pathway, and the abscissa represents the -log<sub>10</sub>-value of the P-value of the enrichment."

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
