

Natural Product Reports

High impact, critical reviews in natural product research and related areas

rsc.li/npr

The Royal Society of Chemistry is the world's leading chemistry community. Through our high impact journals and publications we connect the world with the chemical sciences and invest the profits back into the chemistry community.

For pre-submission queries please contact Katie Lim, Executive Editor. E-mail npr-rsc@rsc.org

Natural Product Reports (electronic: ISSN 1460-4752) is published 12 times a year by the Royal Society of Chemistry, Thomas Graham House, Science Park, Milton Road, Cambridge, UK CB4 0WF.

All orders, with cheques made payable to the Royal Society of Chemistry, should be sent to the Royal Society of Chemistry Order Department, Royal Society of Chemistry, Thomas Graham House, Science Park, Milton Road, Cambridge, CB4 0WF, UK
Tel +44 (0)1223 432398; E-mail orders@rsc.org

2023 Annual (electronic) subscription price: £1257 US\$2212. Customers in Canada will be subject to a surcharge to cover GST. Customers in the EU subscribing to the electronic version only will be charged VAT.

If you take an institutional subscription to any Royal Society of Chemistry journal you are entitled to free, site-wide web access to that journal. You can arrange access via Internet Protocol (IP) address at www.rsc.org/ip

Customers should make payments by cheque in sterling payable on a UK clearing bank or in US dollars payable on a US clearing bank.

Natural Product Reports

rsc.li/npr

Natural Product Reports is a critical review journal that stimulates progress in all areas of natural products research, including isolation, structural and stereochemical determination, biosynthesis, biological activity and synthesis. The scope of the journal is very broad, and many reviews discuss the role of natural products in the wider bioinorganic, bioorganic and chemical biology communities.

Editorial Board

Chair

Tobias Gulder, Technical University of Dresden, Germany

Members

Heike Brötter-Oesterheld, University of Tübingen, Germany
Nadja Cech, University of North Carolina, Greensboro, USA
Alessandra Eustáquio, University of Illinois at

Chicago, USA

Hendrik Luesch, University of Florida, USA
Marnix Medema, Wageningen University, Netherlands

Dong-Chan Oh, Seoul National University, South Korea

Cassandra Quave, Emory University, USA
Margherita Sosio, Naicons Srl, Milan, Italy
Eriko Takano, University of Manchester, UK

Hidetoshi Tokuyama, Tohoku University, Japan

Christopher Vanderwal, University of California, Irvine, USA

Olga Genilloud, Fundación MEDINA, Spain

Rebecca Goss, St Andrews University, UK

Seth Herzon, Yale University, USA

Chambers Hughes, University of Tübingen, Germany

Marcel Jaspars, University of Aberdeen, UK

Martin Kaltenpoth, Max Planck Institute for Chemical Ecology, Germany

Andreas Kirschning, University of Hannover, Germany

Julia Kubanek, Georgia Institute of Technology, USA

Wen Liu, Shanghai Institute of Organic Chemistry, China

Sandra Loesgen, University of Florida, USA

Dawei Ma, Shanghai Institute of Organic Chemistry, China

Fidele Ntie-Kang, University of Buea, Cameroon

Sarah O'Connor, Max Planck Institute for Chemical Ecology, Jena, Germany

Jörn Piel, ETH Zürich, Switzerland

Jürgen Rohr, University of Kentucky, USA

Martin Schmeing, McGill University, Canada

Stefan Schulz, TU Braunschweig, Germany

Michael Sherburn, Australia National University, Australia

Thomas J Simpson, University of Bristol, UK

Janet Smith, University of Michigan, USA

Renxiang Tan, Nanjing University, China

Dirk Trauner, University of Pennsylvania, USA

Reiko Ueoka, Kitasato University, Japan

Kira Weissman, Lorraine University, France

Craig Williams, The University of Queensland, Australia

Zhen Yang, Peking University, China

Yeo Joon Yoon, Seoul National University, Korea

Weidong Zhang, Second Military Medical University, Shanghai, China

Information for Authors

Articles in *Natural Product Reports* are generally commissioned by the editorial staff and editorial board, however, offers of articles for publication may be considered by submitting a short synopsis to Dr Katie Lim, Editor. E-mail: npr-rsc@rsc.org Full details are available from the website at www.rsc.org/npr

Authors may reproduce/republish portions of their published contribution without seeking permission from the Royal Society of Chemistry, provided that any such republication is accompanied by an acknowledgement in the form: (Original Citation)–Reproduced by permission of the Royal Society of Chemistry.
