Correction for '*In situ* synthesis of silver nanowire gel and its super-elastic composite foams' by Shu Huang *et al.*, *Nanoscale*, 2020, **12**, 19861–19869, <https://doi.org/10.1039/D0NR03958F>.

In section 2.2 of the manuscript, the line "Afterwards, 1.75 mL of FeCl<sub>3</sub> in EG solution (600 mM) was dumped into the mixture and vigorously stirred for 1 min" gives the incorrect concentration of FeCl<sub>3</sub> in EG. The correct concentration of FeCl<sub>3</sub> in EG for this experiment is 0.6 mM.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
