Showcasing research from Professor Huang Bolong's laboratory, ABCT, Hong Kong Polytechnic University, Hong Kong S.A.R., China.

Recent advances and strategies of electrocatalysts for large current density industrial hydrogen evolution reaction

This review will briefly compare and explain the differences of hydrogen evolution reaction (HER) between the lab and industrial conditions, and present the recent progress in industrial HER electrocatalysts, categorized mainly by noble/non-noble metals and organized by their optimization strategies.
