We would like to take this opportunity to thank all of *RSC Advances*' reviewers for helping to preserve quality and integrity in chemical science literature.

We would also like to highlight the Outstanding Reviewers for *RSC Advances* in 2022. Each one of our outstanding peer reviewers has been carefully selected by our editorial team and the list includes active researchers who have made significant contributions to peer review and have gone above and beyond in their actions.

In recognition of the varied contributions of our reviewer community, our Outstanding Reviewers from 2022 have been chosen based on several different measures, including the number, timeliness and quality of the reports completed over the last 12 months. We have also chosen to highlight reviewers who provided exceptionally thorough and detailed reports and reviewers who made additional efforts to aid authors in improving their manuscripts.

We would also like to direct a special thanks to the members of the *RSC Advances* Reviewer Panel for their hard work and dedication, and the valuable contribution they have made to the journal. The Reviewer Panel is a key part of our commitment to deliver rigorous and fair peer review and ensures that manuscripts are handled by experts throughout the peer review process. We are proud to work with these individuals and recognise their crucial role for the journal.

*"Peer review is a vital part of the publication process and relies upon the support of our authors and reviewers. We would like to take this opportunity to thank our Outstanding Reviewers and all our reviewers for their continued support for *RSC Advances* to allow us to maintain high publishing standards and fast decision times."* – Karen Faulds, Editor-in-Chief

*"Our fantastic reviewer community provides the foundation on which the success of *RSC Advances* is built – I am really thankful to them for their commitment and expertise!"* – Russell J Cox, Editor-in-Chief
