Correction: Environmentally responsive hydrogel composites for dynamic body thermoregulation

Marjorie G. Garzón Altamirano,^{ab} M. G. Abebe,^c N. Hergué,^a J. Lejeune,^b A. Cayla,^b C. Campagne,^b B. Maes,^c E. Devaux,^b J. Odent^{*a} and J. M. Raquez^a

Correction for 'Environmentally responsive hydrogel composites for dynamic body thermoregulation' by M. Garzón Altamirano *et al.*, *Soft Matter*, 2023, 19, 2360–2369, <https://doi.org/10.1039/D2SM01548J>.

The Royal Society of Chemistry regrets that the images within Fig. 5 and 6 have been incorrectly displayed. The correct Fig. 5 and 6 are as shown below.

Fig. 5 Relationship between the percentage of infrared radiation emitted by the human body that is reflected by the PNIPAM-based hydrogel composite containing 20 wt% of SiO_2 (black circles), the distance between the SiO_2 particles (red squares) and the surface roughness (blue triangles) with respect to the temperature.
