Correction: Controllable design of multi-metallic aerogels as efficient electrocatalysts for methanol fuel cells

Lanqing Li,[†] Wei Gao,[†] Jianqi Ye, Haoxin Fan and Dan Wen*Correction for 'Controllable design of multi-metallic aerogels as efficient electrocatalysts for methanol fuel cells' by Lanqing Li et al., *J. Mater. Chem. A*, 2023, 11, 5359–5369, DOI: <https://doi.org/10.1039/D2TA09478A>.

The authors regret errors in the published article; the term '18 mmol' in Section 2.2 is incorrect and should instead read '18 μmol '; the term '1.8 (0, 0.9, and 3.6) mmol' in Section 2.3 is incorrect and should instead read '1.8 (0, 0.9, and 3.6) μmol '; the term '0.9 mmol' in Section 3.3.1 is incorrect and should instead read '0.9 μmol '; the term '3.6 mmol' in Section 3.3.3 is incorrect and should instead read '3.6 μmol '; the term ' n_{Pt} /mmol' in Fig. 3c is incorrect and should instead read ' n_{Pt} / μmol ', and the revised Fig. 3 is shown below.

Fig. 3 (a) TEM images of PtNi-*x* (left to right: PtNi-0, PtNi-1, PtNi-2, and PtNi-3), (b) corresponding histogram of wall thickness distribution graphs and (c) graphic illustration of the effect of H₂PtCl₆ amount during post-treatment on the formation of PtNi nanotubular aerogels.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
