## Correction: Critical role of hydrogen bonding between microcrystalline cellulose and g-C<sub>3</sub>N<sub>4</sub> enables highly efficient photocatalysis

Zhaoqiang Wang,<sup>†,a</sup> Guixiang Ding,<sup>†,a</sup> Juntao Zhang,<sup>a</sup> Xianqing Lv,<sup>a</sup> Peng Wang,<sup>b</sup> Li Shuai,<sup>a</sup> Chunxue Li,<sup>\*c</sup> Yonghao Ni<sup>\*a</sup> and Guangfu Liao<sup>\*a</sup>

Correction for 'Critical role of hydrogen bonding between microcrystalline cellulose and g-C<sub>3</sub>N<sub>4</sub> enables highly efficient photocatalysis' by Zhaoqiang Wang et al., *Chem. Commun.*, 2024, **60**, 204–207, <https://doi.org/10.1039/D3CC04800D>.

The authors regret that there was an error in the scale bar of Fig. 1a in the original article. The correct version of Fig. 1 is shown below.

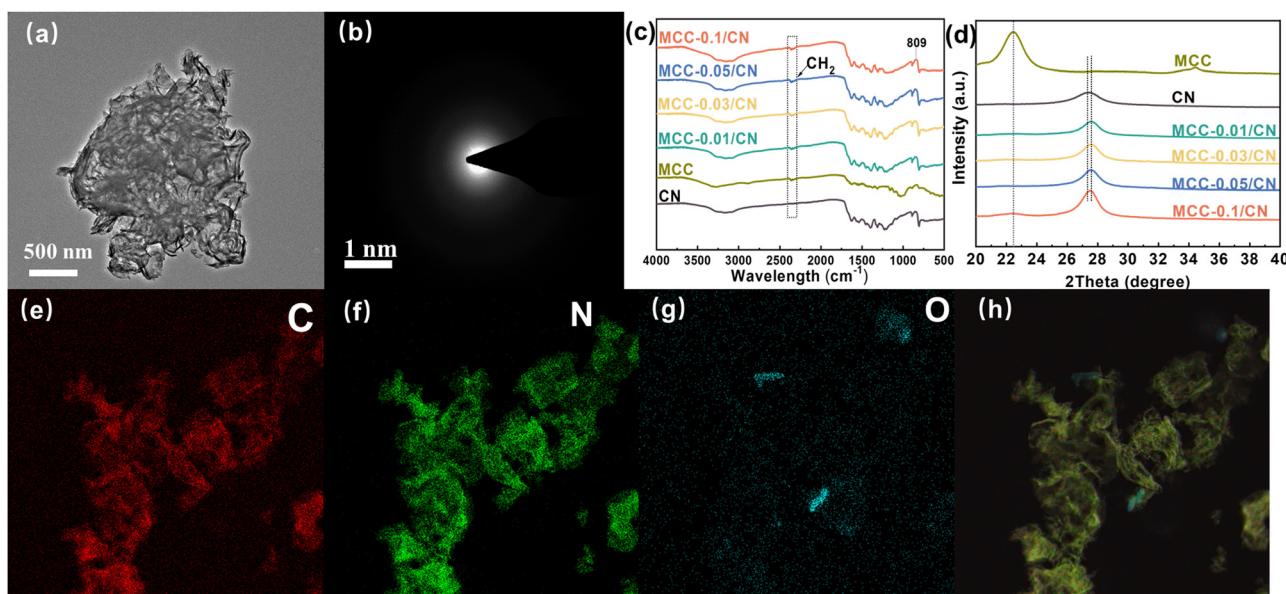

Fig. 1 (a) HRTEM image of MCC-0.05/CN. (b) The SAED pattern of MCC-0.05/CN. (c) XRD and (d) FTIR spectra of CN and MCC-X/CN. (e) and (f) The element mapping of MCC-0.05/CN.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
