 Correction for 'Modified minimal-size fragments of heparan sulfate as inhibitors of endosulfatase-2 (Sulf-2)' by Alice Kennett et al., *Chem. Commun.*, 2024, **60**, 436–439, <https://doi.org/10.1039/D3CC02565A>.

An error in the manuscript has been identified by a reader in which compound **11** was referenced instead of compound **5**. The following sentence is included:

“The inhibition of Sulf-2 by compound **11** was evaluated over a concentration range and the IC₅₀ was found to be 39.8 μM ± 17.6 (Fig. S1, ESI†).”

However, this section should instead read as follows: “The inhibition of Sulf-2 by compound **5** was evaluated over a concentration range and the IC₅₀ was found to be 39.8 μM ± 17.6 (Fig. S1, ESI†).”

We thank the reader for alerting the editors to this error.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
