Retraction of 'Engineering selective CO₂ photoreduction by tailored interfacial design of P-modulated CuPc/B-C₃N₄ heterojunction for improved C₂H₄ selectivity' by Imran Khan *et al.*, *Catal. Sci. Technol.*, 2023, <https://doi.org/10.1039/d3cy01447a>.

The Royal Society of Chemistry, with the agreement of the authors, hereby wholly retracts this *Catalysis Science & Technology* article due to significant overlap with text, data and figures published in ref. 1, which means this *Catalysis Science & Technology* article is redundant. Ref. 1 was not cited in this *Catalysis Science and & Technology* article and Fig. 1–5 reproduced data from ref. 1.

Imran Khan has stated that authors Baoji Miao, Salman Khan, Amir Zada, Sharafat Ali, Muhammad Rizwan, Afsar Khan, Muhammad Ishaq Ali Shah and Abdullah Alodhayb were unaware of the dual submission.

Baoji Miao, Salman Khan, Sharafat Ali, Muhammad Rizwan, Afsar Khan, and Abdullah Alodhayb have been informed of this retraction but have not responded.

Signed: Imran Khan, Muhammad Ishaq Ali Shah, and Amir Zada.

Date: 17th May 2024.

Retraction endorsed by Maria Southall, Executive Editor *Catalysis, Science & Technology*.
