FARADAY DISCUSSIONS

Volume 249, 2024

The Faraday Community for Physical Chemistry of the Royal Society of Chemistry, previously the Faraday Society, was founded in 1903 to promote the study of sciences lying between chemistry, physics and biology.

Faraday Discussions (Print ISSN 1359-6640, Electronic ISSN 1364-5498) is published 8 times a year by the Royal Society of Chemistry, Thomas Graham House, Science Park, Milton Road, Cambridge, UK CB4 0WE.

Volume 249 ISBN 978-1-83767-095-6

2024 annual subscription price: print+electronic £1272

US \$2240; electronic only £1212, US \$2133.

Customers in Canada will be subject to a surcharge to cover GST.

Customers in the EU subscribing to the electronic version only will be charged VAT.

All orders, with cheques made payable to the Royal Society of Chemistry, should be sent to the Royal Society of Chemistry Order Department, Royal Society of Chemistry, Thomas Graham House, Science Park, Milton Road, Cambridge, CB4 0WE, UK
Tel +44 (0)1223 432398; E-mail orders@rsc.org

If you take an institutional subscription to any Royal Society of Chemistry journal you are entitled to free, site-wide web access to that journal. You can arrange access via Internet Protocol (IP) address at www.rsc.org/ip

Customers should make payments by cheque in sterling payable on a UK clearing bank or in US dollars payable on a US clearing bank.

Faraday Discussions

Faraday Discussions are unique international discussion meetings that focus on rapidly developing areas of chemistry and its interfaces with other scientific disciplines.

Scientific Committee volume 249

Chair

Mischa Bonn, Max Planck Institute for Polymer Research, Germany

Committee

Angelos Michaelides, University of Cambridge, UK
Karina Morgenstern, University of Ruhr Bochum, Germany
Laura Fumagalli, University of Manchester, UK
Valeria Molinero, University of Utah, United States
Yuki Nagata, Max Planck Institute for Polymer Research, Germany

Faraday Standing Committee on Conferences

Chair

Susan Perkin, University of Oxford, UK

Secretary

Susan Weatherby, Royal Society of Chemistry, UK

George Booth, King's College London, UK

Rachel Evans, University of Cambridge, UK

David Fermin, University of Bristol, UK

Dwayne Heard, University of Leeds, UK

David Lennon, University of Glasgow, UK

Angelos Michaelides, University College London, UK

Julia Weinstein, University of Sheffield, UK

Advisory Board

Vic Arcus, The University of Waikato, New Zealand

Timothy Easun, Cardiff University, UK

Dirk Guldí, University of Erlangen-Nuremberg, Germany

Marina Kuimova, Imperial College London, UK

Luis Liz-Marzán, CIC biomaGUNE, Spain

Andrew Mount, University of Edinburgh, UK

Frank Neese, Max Planck Institute for Chemical Energy Conversion, Germany

Michel Orrit, Leiden University, The Netherlands

Zhong-Qun Tian, Xiamen University, China

Siva Umaphathy, Indian Institute of Science, Bangalore, India

Bert Weckhuysen, Utrecht University, The Netherlands

Julia Weinstein, University of Sheffield, UK

Sihai Yang, University of Manchester, UK

Water at Interfaces

Faraday Discussions

www.rsc.org/faraday_d

A General Discussion on Water at Interfaces was held in London, UK and online on the 20th, 21st and 22nd of September 2023.

The Royal Society of Chemistry is the world's leading chemistry community. Through our high impact journals and publications we connect the world with the chemical sciences and invest the profits back into the chemistry community.

CONTENTS

ISSN 1359-6640; ISBN 978-1-83767-095-6

Cover

See Olvera de la Cruz *et al.*, *Faraday Discuss.*, 2024, **249**, 408–423.

A calcium cation perturbs the hydration shells of DNA molecules, creating an attractive interaction between adjacent strands.

Image reproduced by permission of Monica Olvera de la Cruz from *Faraday Discuss.*, 2024, **249**, 408–423.

INTRODUCTORY LECTURE

9 Spiers Memorial Lecture: Water at interfaces

Shane W. Devlin, Franky Bernal, Erika J. Riffe, Kevin R. Wilson and Richard J. Saykally

PAPERS AND DISCUSSIONS

38 The effect of surface hydrophobicity and hydrophilicity on ion–ion interactions at water–solid interfaces

Dong Guan, Ye Tian, Yizhi Song, Mengze Zhao, Kaihui Liu, Li-Mei Xu, En-Ge Wang and Ying Jiang

50 First-principles spectroscopy of aqueous interfaces using machine-learned electronic and quantum nuclear effects

Venkat Kapil, Dávid Péter Kovács, Gábor Csányi and Angelos Michaelides

69 Hydrophobic hydration of the hydrocarbon adamantane in amorphous ice

Sukhpreet K. Talewar, Luis Carlos Pardo, Thomas F. Headen, Siriney O. Halukeerthi, Bharvi Chikani, Alexander Rosu-Finsen and Christoph G. Salzmann

- 84 Interaction of surface cations of cleaved mica with water in vapor and liquid forms**
Giada Franceschi, Sebastian Brandstetter, Jan Balajka, Igor Sokolović, Jiří Pavelec, Martin Setvin, Michael Schmid and Ulrike Diebold
- 98 A first-principles machine-learning force field for heterogeneous ice nucleation on microcline feldspar**
Pablo M. Piaggi, Annabella Selloni, Athanassios Z. Panagiotopoulos, Roberto Car and Pablo G. Debenedetti
- 114 Understanding the impact of ammonium ion substitutions on heterogeneous ice nucleation**
Katarina E. Blow, Thomas F. Whale, David Quigley and Gabriele C. Sosso
- 133 Ice interfaces: general discussion**
- 162 Collective modes and quantum effects in two-dimensional nanofluidic channels**
Baptiste Coquinot, Maximilian Becker, Roland R. Netz, Lydéric Bocquet and Nikita Kavokine
- 181 Raman and IR spectra of water under graphene nanoconfinement at ambient and extreme pressure–temperature conditions: a first-principles study**
Rui Hou, Chu Li and Ding Pan
- 195 Insight into the K channel's selectivity from binding of K^+ , Na^+ and water to *N*-methylacetamide**
Mark J. Stevens and Susan L. B. Rempe
- 210 The limit of macroscopic homogeneous ice nucleation at the nanoscale**
John A. Hayton, Michael B. Davies, Thomas F. Whale, Angelos Michaelides and Stephen J. Cox
- 229 Convergence of dissolving and melting at the nanoscale**
C. Chen, X. Wang, K. Binder, U. Pöschl, H. Su and Y. Cheng
- 243 Dynamics and nano-rheology of interfacial water: general discussion**
- 267 Water molecules mute the dependence of the double-layer potential profile on ionic strength**
Aditya Limaye, Dylan Suvlu and Adam P. Willard
- 289 Water dynamics and sum-frequency generation spectra at electrode/aqueous electrolyte interfaces**
Jean-François Olivier, James T. Hynes and Damien Laage
- 303 Substrate effect on charging of electrified graphene/water interfaces**
Yongkang Wang, Yuki Nagata and Mischa Bonn
- 317 Biological lipid hydration: distinct mechanisms of interfacial water alignment and charge screening for model lipid membranes**
Clara-Magdalena Saak, Lisa B. Dreier, Kevin Machel, Mischa Bonn and Ellen H. G. Backus
- 334 Properties of aqueous electrolyte solutions at carbon electrodes: effects of concentration and surface charge on solution structure, ion clustering and thermodynamics in the electric double layer**
Aaron R. Finney and Matteo Salvalaglio

- 363 Are SAXS and SANS suitable to extract information on the role of water for electric-double-layer formation at the carbon–aqueous-electrolyte interface?**
Malina Seyffertitz, Sebastian Stock, Max Valentin Rauscher, Christian Prehal, Sylvio Haas, Lionel Porcar and Oskar Paris
- 381 Electrified/charged aqueous interfaces: general discussion**
- 408 Transformations in crystals of DNA-functionalized nanoparticles by electrolytes**
Roger John-Erik Reinertsen, Felipe Jiménez-Ángeles, Sumit Kewalramani, Michael Bedzyk and Monica Olvera de la Cruz
- 424 Collective motion of Nafion-based micromotors in water**
Jordi Fraxedas, David Reguera and María José Esplandiú
- 440 How do water-mediated interactions and osmotic second virial coefficients vary with particle size?**
Hidefumi Naito, Tomonari Sumi and Kenichiro Koga
- 453 Atomic-scale structure of interfacial water on gel and liquid phase lipid membranes**
Simone Benaglia, Harriet Read and Laura Fumagalli
- 469 Water–lipid interface in lipidic mesophases with excess water**
Yang Yao, Sara Catalini, Paolo Foggi and Raffaele Mezzenga
- 485 Soft matter–water interface: general discussion**

CONCLUDING REMARKS

- 521 Concluding remarks for *Faraday Discussion* on Water at Interfaces**
Mischa Bonn

ADDITIONAL INFORMATION

- 526 Poster titles**
- 530 List of participants**
