FARADAY DISCUSSIONS Volume 254, 2024

The Faraday Community for Physical Chemistry of the Royal Society of Chemistry, previously the Faraday Society, was founded in 1903 to promote the study of sciences lying between chemistry, physics and biology.

A General Discussion on Correlated electronic structure was held in London, UK and online on the 17^{th} , 18^{th} and 19^{th} of July 2024.

The Royal Society of Chemistry is the world's leading chemistry community. Through our high impact journals and publications we connect the world with the chemical sciences and invest the profits back into the chemistry community.
