Correction for 'High-precision measurement of Cd isotopes in ultra-trace Cd samples using double spike-standard addition MC-ICP-MS' by Hui Chang *et al.*, *J. Anal. At. Spectrom.*, 2023, **38**, 950–962, <https://doi.org/10.1039/D3JA00047H>.

The authors regret that eqn (5) was not correctly presented in the original article. The corrected eqn (5) is given below:

$$\delta^{114/110}\text{Cd}_{\text{spl-multi}} = \frac{P_{\text{std1}} \times (\delta^{114/110}\text{Cd}_{\text{std1}} - \delta^{114/110}\text{Cd}_{\text{mix1}}) \times (\delta^{114/110}\text{Cd}_{\text{std2}} - \delta^{114/110}\text{Cd}_{\text{std1}}) \times (P_{\text{std2}} - P_{\text{mix2}})}{(P_{\text{std2}} - P_{\text{mix2}}) \times P_{\text{std1}} \times (\delta^{114/110}\text{Cd}_{\text{std1}} - \delta^{114/110}\text{Cd}_{\text{mix1}}) - (P_{\text{std1}} - P_{\text{mix1}}) \times P_{\text{std2}} \times (\delta^{114/110}\text{Cd}_{\text{std2}} - \delta^{114/110}\text{Cd}_{\text{mix2}})} + \delta^{114/110}\text{Cd}_{\text{std1}}$$

This error is only present in page 954; it does not affect the Abstract, Introduction, Results and discussion, Conclusions and ESI. The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
