Outstanding Reviewers for *RSC Applied Polymers* in 2023

We would like to take this opportunity to thank all *RSC Applied Polymers* reviewers for helping to preserve quality and integrity in chemical science literature. We would also like to highlight the Outstanding Reviewers for *RSC Applied Polymers* in 2023.

Each one of our outstanding peer reviewers have been chosen based on the number, timeliness and quality of the reports completed during 2023.

"I would like to extend a heartfelt thank you to all who have reviewed for RSC Applied Polymers, and especially the Outstanding Reviewers. Thorough peer review is a hallmark of scientific integrity and impact of a journal. Good reviews help to elevate research, not only by providing critical insights into the science, but also by making the work more accessible to readers. The contributions of the Outstanding Reviewers are especially crucial as RSC Applied Polymers continues to establish both the high-impact expected of the work, as well as the focus on the application of polymers". Professor Emily Pentzer, Editor-In-Chief.

We would also like to thank the *RSC Applied Polymers* Editorial Board and Advisory board, and the applied polymer community for their continued support of the journal, as authors, reviewers, and readers.

We continue to work on improving the diversity of our reviewer pool to reflect the diversity of the communities that we serve.

Professor Emily Pentzer, Editor-in-Chief
 Dr Jeremy Allen, Executive Editor
