Correction: High performance $\text{LiMnFePO}_4/\text{Li}_4\text{Ti}_5\text{O}_{12}$ full cells by functionalized polymeric additives

Jean-Christophe Daigle,^{*a} Sylviane Rochon,^a Yuichiro Asakawa,^b Benoît Fleutot,^a Charlotte Mallet,^a Kamyab Amouzegar^a and Karim Zaghbi^{*c}

Correction for 'High performance $\text{LiMnFePO}_4/\text{Li}_4\text{Ti}_5\text{O}_{12}$ full cells by functionalized polymeric additives' by Jean-Christophe Daigle *et al.*, *Mater. Adv.*, 2021, **2**, 253–260, <https://doi.org/10.1039/D0MA00679C>.

The authors regret that in the original article “3,4-dimethoxybenzene” was incorrectly referred to as “2,3-dimethoxybenzene”, and “3,4-dimethoxystyrene” was incorrectly stated as “2,3-dimethoxystyrene.” These errors were present in the Abstract, Introduction, and Results and discussion sections.

The Electronic Supplementary Information (ESI) linked to the original article has been updated with the corrected names of the monomers.

These errors do not affect the conclusions of the article.

The article was featured on a cover of the journal which cannot be corrected. Therefore, the back cover text of Volume 2, Issue 1, 2021 of *Materials Advances* contains the erroneous monomer name, 2,3-dimethoxybenzene.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
