Correction for 'Cu(I) diimine complexes as immobilised antibacterial photosensitisers operating in water under visible light' by Martin V. Appleby *et al.*, *Mater. Adv.*, 2020, 1, 3417–3427, <https://doi.org/10.1039/D0MA00642D>.

The authors regret that a chemical structure was depicted incorrectly in Fig. 1 and Scheme S1. The corrected figures are as shown below.

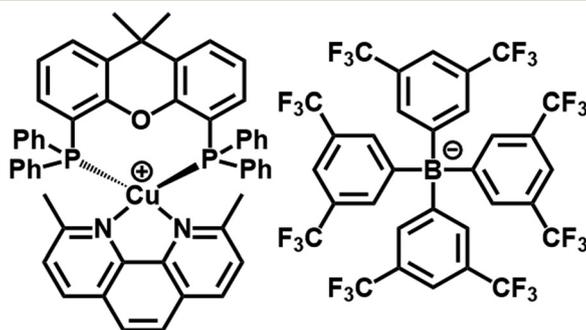

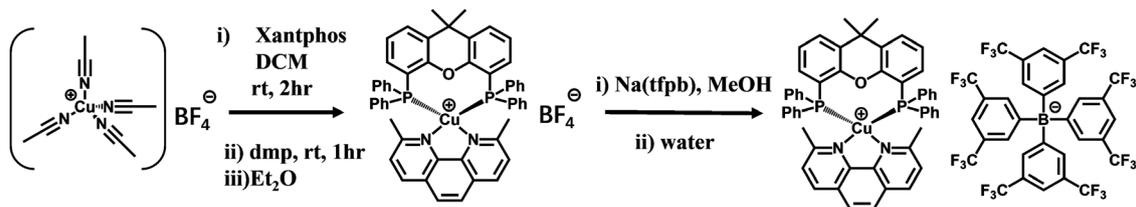

Fig. 1 Chemical structure of complex 1 with counterion tfpb^- . Structure of complex 1 obtained by single crystal X-ray crystallography, which is fully consistent with that published previously, is given in the ESI,† Fig. S8. CCDC 2012235.

Scheme S1 Synthesis scheme of complex 1.¹

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
