## Expression of concern: Acceleration of ammonium phosphate hydrolysis using TiO<sub>2</sub> microspheres as a catalyst for hydrogen production

Ayman H. Zaki, \*a Ahmed Esmail Shalan, \*be Aya El-Shafeay, a Yasser M. Gadelhak, a Enas Ahmed, M. O. Abdel-Salam, M. Sobhib and S. I. El-deka

DOI: 10.1039/d4na90040e

rsc.li/nanoscale-advances

Expression of concern for 'Acceleration of ammonium phosphate hydrolysis using  $TiO_2$  microspheres as a catalyst for hydrogen production' by Ayman H. Zaki *et al.*, *Nanoscale Adv.*, 2020, **2**, 2080–2086, https://doi.org/10.1039/D0NA00204F.

The Royal Society of Chemistry is publishing this expression of concern in order to alert readers that concerns have been raised regarding the reliability of the particle size distribution data in Fig. 1, and the SEM images in Fig. 2b and 5b. An investigation is underway, and an expression of concern will continue to be associated with the article until a final outcome is reached.
