Expression of concern for 'Decoration of graphene oxide nanosheets with carboxymethylcellulose hydrogel, silk fibroin and magnetic nanoparticles for biomedical and hyperthermia applications' by Mostafa Ghafori Gorab *et al.*, *Nanoscale Adv.*, 2023, **5**, 153–159, https://doi.org/10.1039/D2NA00394E.

*Nanoscale Advances* is publishing this expression of concern in order to alert our readers to the fact that concerns have been raised regarding the reliability of the hemolysis plate images in Fig. 5 and the MTT plate image in Fig. 6. An investigation is underway, and an expression of concern will continue to be associated with the article until a final outcome is reached.
