The authors regret that there was a spelling mistake in section “3.4 Release, reculture and cell viability investigations of CTCs on the BP-Fe<sub>3</sub>O<sub>4</sub>-AuNR/Apt probe”, where the cells are referred to as BGC-803, but it should have read; “Similar results were acquired for BGC-823 cells (Fig. S6C and S6D).”.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
