

Chemistry Education Research and Practice

rsc.li/cerp

A fully refereed electronic journal for teachers, researchers and other practitioners in chemistry education

IN THIS ISSUE

ISSN 1756-1108 CODEN CERPCE 25(4) 967–1326 (2024)

EDITORIAL

973

Guidance on the data availability statement requirement in *CERP*

James M. Nyachwaya and Scott E. Lewis*

PAPERS

976

Exploring post-secondary chemistry instructors' knowledge for teaching ^1H NMR spectroscopy

Rebecca C. Fantone,* Eleni Geragosian, Megan Connor and Ginger V. Shultz*

996

The impact of co-design-based formative assessment practices on preservice science teachers' understanding of chemical concepts in a general chemistry laboratory course

Osman Nafiz Kaya* and Zehra Kaya

1018

Optimizing testing feedback in introductory chemistry: a multi-treatment study exploring varying levels of assessment feedback and subsequent performance

Kristen L. Murphy, David G. Schreurs, Melonie A. Teichert, Cynthia J. Luxford, Jaclyn M. Trate, Jordan T. Harshmann and Jamie L. Schneider*

1030

Comparing drawing tasks and elaborate single-choice questions in simulation-based learning: how do they facilitate students' conceptual understanding on chemical equilibria?

Yannik Peperkorn, Jana-Kim Buschmann and Stefanie Schwedler*

PAPERS

1052

Reconstructing perspectives: investigating how molecular geometry cards (MGCards) and molecular model building (MMB) disrupt students' alternative notions of molecular structure – a qualitative study

Erlina,* Dylan P. Williams, Chris Cane, Hairida, Maria Ulfah and Azwa F. Wafiq

1071

Attention is currency: how surface features of Lewis structures influence organic chemistry student reasoning about stability

Fridah Rotich, Lyniesha Ward, Carly Beck and Maia Popova*

1090

Is general chemistry too costly? How different groups of students perceive the task effort and emotional costs of taking a chemistry course and the relationship to achievement and retention

Cassidy L. Wilkes, Madelyn M. Gamble and Guizella A. Rocabado*

1105

Turkish science high school students' mental models of the electron cloud

Sevgül Çalış

1122

Learning or legitimacy? An investigation of the graduate student milestones within a chemistry doctoral program

Jocelyn Elizabeth Nardo

PAPERS

1143

Assessing high school students' chemical thinking using an essential questions-perspective framework

Ming Chi, Changlong Zheng* and Peng He

1159

Why do we assess students? investigating general chemistry instructors' conceptions of assessment purposes and their relationships to assessment practices

Lu Shi, Ying Wang, Jherian K. Mitchell-Jones and Marilyne Stains*

1175

Fostering inclusive learning: customized kits in chemistry education and their influence on self-efficacy, attitudes and achievements

Enas Easa and Ron Blonder*

1197

Development of problem-solving skills supported by metacognitive scaffolding: insights from students' written work

Kimberly Vo, Mahbub Sarkar, Paul J. White and Elizabeth Yuriev*

1210

The complexity of chemistry mindset beliefs: a multiple case study approach

Deborah L. Santos and Suazette Reid Mooring*

PAPERS

1229

Recognition experiences of women of color in chemistry: an intersectional study

Norda S. Stephenson* and Ursula A. Abelsen

1251

STEM-PT Traveler, a game-based approach for learning elements of the periodic table: an approach for enhancing secondary school students' motivation for learning chemistry

Mohammad Najib Mohammed Naaim and Mageswary Karpudewan*

1268

A case study on graduate teaching assistants' teacher noticing when enacting a case-comparison activity in organic chemistry

Ina Zaimi,* Daisy B. Haas,* Matthew J. Silverstein and Ginger V. Shultz

1289

How upper secondary students figure chemistry

Jonas Niemann,* Henriette Holmegaard and Lene Møller Madsen

1311

Flipping the script in organic reaction mechanism instruction: using generative pedagogies instead of lecture to improve learning outcomes

Connor Haindfield, William Cerbin, Douglas Baumann and Heather Schenck*
