Soft Matter

Where physics meets chemistry meets biology for fundamental soft matter research

rsc.li/soft-matter-journal

The Royal Society of Chemistry is the world's leading chemistry community. Through our high impact journals and publications we connect the world with the chemical sciences and invest the profits back into the chemistry community.

IN THIS ISSUE

ISSN 1744–6848 CODEN SMOABF 20(11) 2409–2626 (2024)

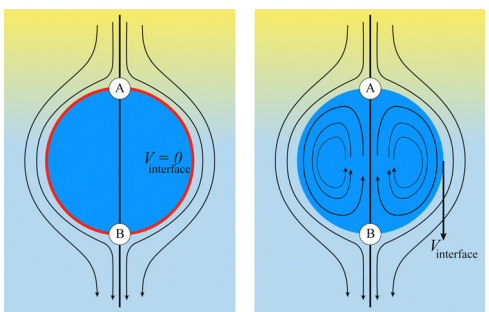
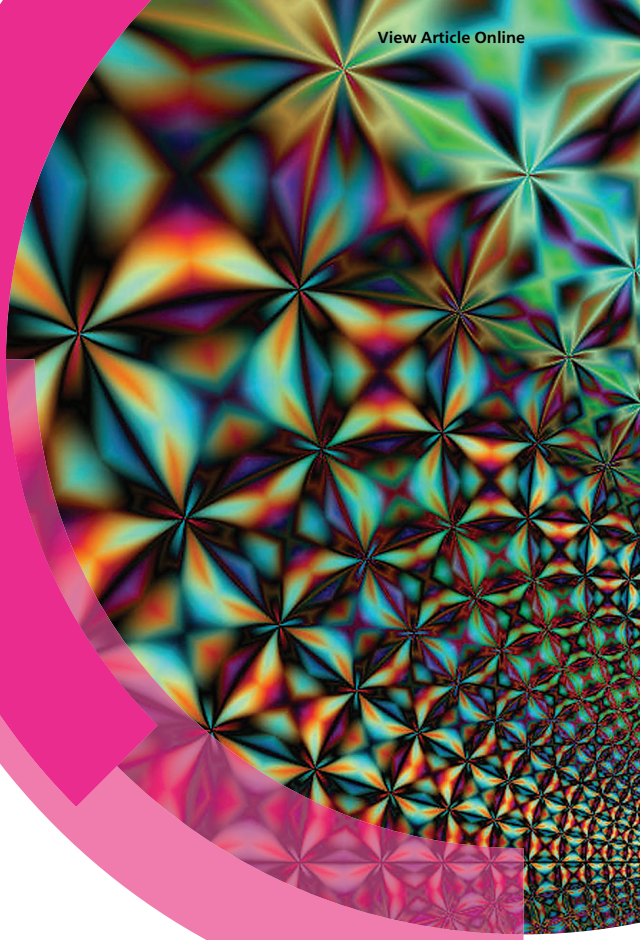
REVIEW



ROYAL SOCIETY OF CHEMISTRY



RSC Advances

At the heart of open access for the global chemistry community

Editor-in-chief

Russell J Cox
Leibniz Universität Hannover, Germany

We stand for:

Breadth We publish work in all areas of chemistry and reach a global readership

Affordability Low APCs, discounts and waivers make publishing open access achievable and sustainable

Quality Research to advance the chemical sciences undergoes rigorous peer review for a trusted, society-run journal

Community Led by active researchers, we publish quality work from scientists at every career stage, and all countries

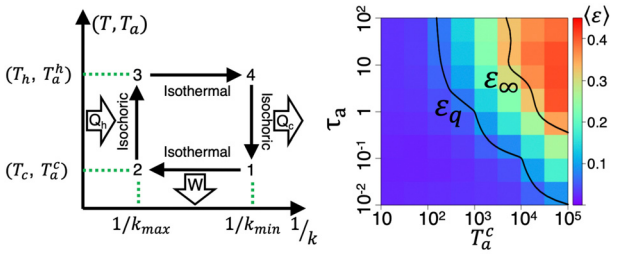
The effects of asymmetry in active noises on the efficiency of single colloidal Stirling engines with active noises

Taejin Kwon, Seulki Kwon and Bong June Sung*



Asymmetry in active noises enhances the efficiency of single colloidal Stirling engines

2610

Electric field-mediated adhesive dynamics of cells inside bio-functionalised microchannels offers important cues for active control of cell–substrate adhesion

Sampad Laha, Dhruba Dhar, Mainak Adak, Aditya Bandopadhyay, Soumen Das, Jyotirmoy Chatterjee and Suman Chakraborty*
