The authors regret that the version of Fig. 3 in the original article was incorrect and that the figure shown was instead a repeat of Fig. 1. The correct version of Fig. 3 is shown below. This error does not affect the conclusions of the article.

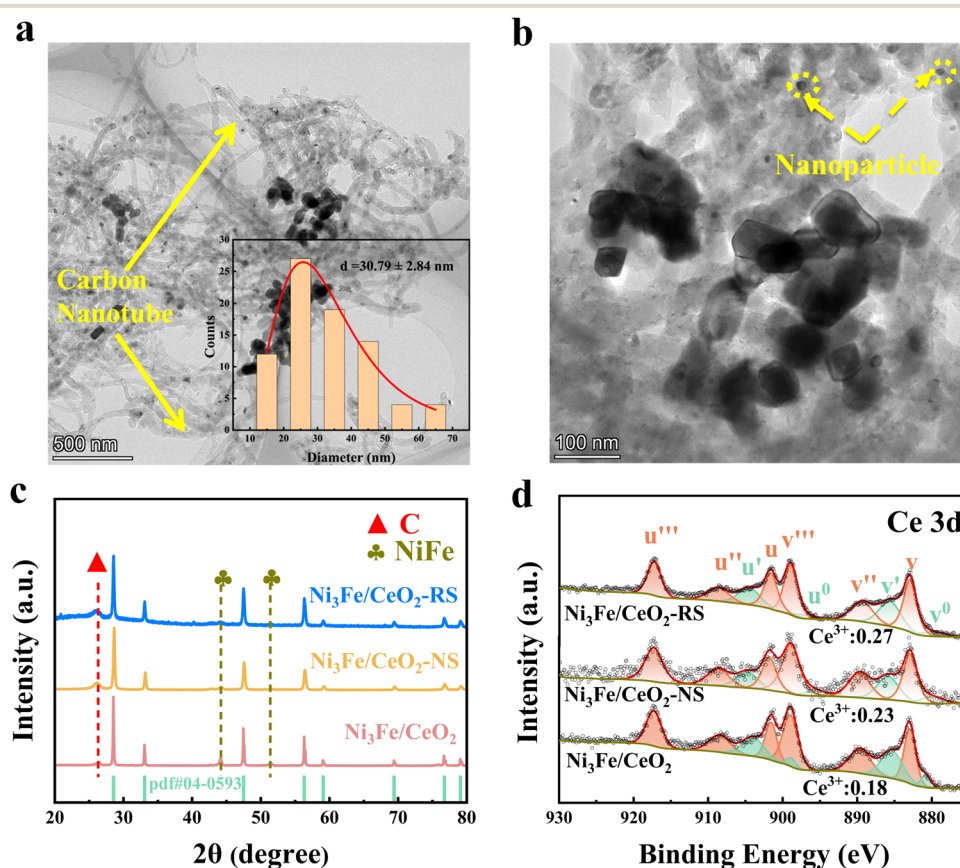

Fig. 3 Characterizations of the spent samples. (a) and (b) TEM images of spent Ni<sub>3</sub>Fe/CeO<sub>2</sub>-RS, (c) XRD patterns within the 2θ range of 20–80°, and (d) Ce 3d spectra.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
