Expression of Concern for 'Photo-induced reduction of CO₂ using a magnetically separable Ru-CoPc@TiO₂@SiO₂@Fe₃O₄ catalyst under visible light irradiation' by Pawan Kumar et al., *Dalton Trans.*, 2015, **44**, 4546–4553, <https://doi.org/10.1039/C4DT02461C>.

Dalton Transactions is publishing this expression of concern in order to alert our readers to the fact that concerns have been raised regarding the reliability of the XRD data in Fig. 1.

An investigation is underway, and an expression of concern will continue to be associated with this article until a final outcome is reached.

Signed: Sally Howells-Wyllie, Executive Editor, *Dalton Transactions*
