Correction: Dual role of arsenite in hydrolysis and post-hydrolysis fluorescence sensing of selective pH-dependent probes

Pushpendra Singh and Kalyan K. Sadhu*

DOI: 10.1039/d5dt90058a rsc.li/dalton

Correction for 'Dual role of arsenite in hydrolysis and post-hydrolysis fluorescence sensing of selective pH-dependent probes' by Pushpendra Singh and Kalyan K. Sadhu, Dalton Trans., 2024, 53, 13950-13959, https://doi.org/10.1039/D4DT01728E

Fig. 1 in the original included the incorrect image for the sample treated with $HAsO_4^{2-}$. The correct figure is provided here.

Fig. 1 Colorimetric change in 1 in the presence of sodium salts of the anions. Each solution contains 5% water in acetonitrile.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
