FARADAY DISCUSSIONS

Volume 260, 2025

The Faraday Community for Physical Chemistry of the Royal Society of Chemistry, previously the Faraday Society, was founded in 1903 to promote the study of sciences lying between chemistry, physics and biology.

Faraday Discussions (Print ISSN 1359-6640,

Electronic ISSN 1364-5498) is published 8 times a year by the Royal Society of Chemistry, Thomas Graham House, Science Park, Milton Road, Cambridge, UK CB4 0WF.

Volume 260 ISBN 978-1-83707-066-4

2025 annual subscription price: print+electronic £1342 US \$2363; electronic only £1279, US \$2250.

Customers in Canada will be subject to a surcharge to cover GST. Customers in the EU subscribing to the electronic version only will be charged VAT.

All orders, with cheques made payable to the Royal Society of Chemistry, should be sent to the Royal Society of Chemistry Order Department, Royal Society of Chemistry, Thomas Graham House, Science Park, Milton Road, Cambridge, CB4 0WF, UK Tel +44 (0)1223 432398; E-mail orders@rsc.org

If you take an institutional subscription to any Royal Society of Chemistry journal you are entitled to free, site-wide web access to that journal. You can arrange access via Internet Protocol (IP) address at www.rsc.org/ip

Customers should make payments by cheque in sterling payable on a UK clearing bank or in US dollars payable on a US clearing bank.

Faraday Discussions

Faraday Discussions are unique international discussion meetings that focus on rapidly developing areas of chemistry and its interfaces with other scientific disciplines.

Scientific Committee volume 260

Advances in Supramolecular Gels

Faraday Discussions

www.rsc.org/faraday d

A General Discussion on Advances in Supramolecular Gels was held in Glasgow, UK and online on the 30th of April, 1st and 2nd of May 2025.

The Royal Society of Chemistry is the world's leading chemistry community. Through our high impact journals and publications we connect the world with the chemical sciences and invest the profits back into the chemistry community.

INTRODUCTORY LECTURE

Spiers Memorial Lecture: Recent advances (and challenges) in supramolecular gels Haozhe Zheng and Darrin J. Pochan

PAPERS AND DISCUSSIONS

- Surfactant-like peptide gels are based on cross-\(\beta \) amyloid fibrils Abhinaba Das, Ordy Gnewou, Xiaobing Zuo, Fengbin Wang and Vincent P. Conticello
- Unveiling the structure of protein-based hydrogels by overcoming cryo-SEM sample preparation challenges
 - Dimitra Katrantzi, Stuart Micklethwaite, Nicole Hondow, Andy Brown and Lorna Dougan
