Correction for 'Highly selective, catalyst-free CO_2 reduction in strong acid without alkali cations by a mechanical energy-induced triboelectric plasma-electrolytic system' by Hui Hu *et al.*, *Green Chem.*, 2025, https://doi.org/10.1039/d5gc00977d.

The authors regret that Fig. 5 was incorrect in the original article. The correct version of Fig. 5 is given below.

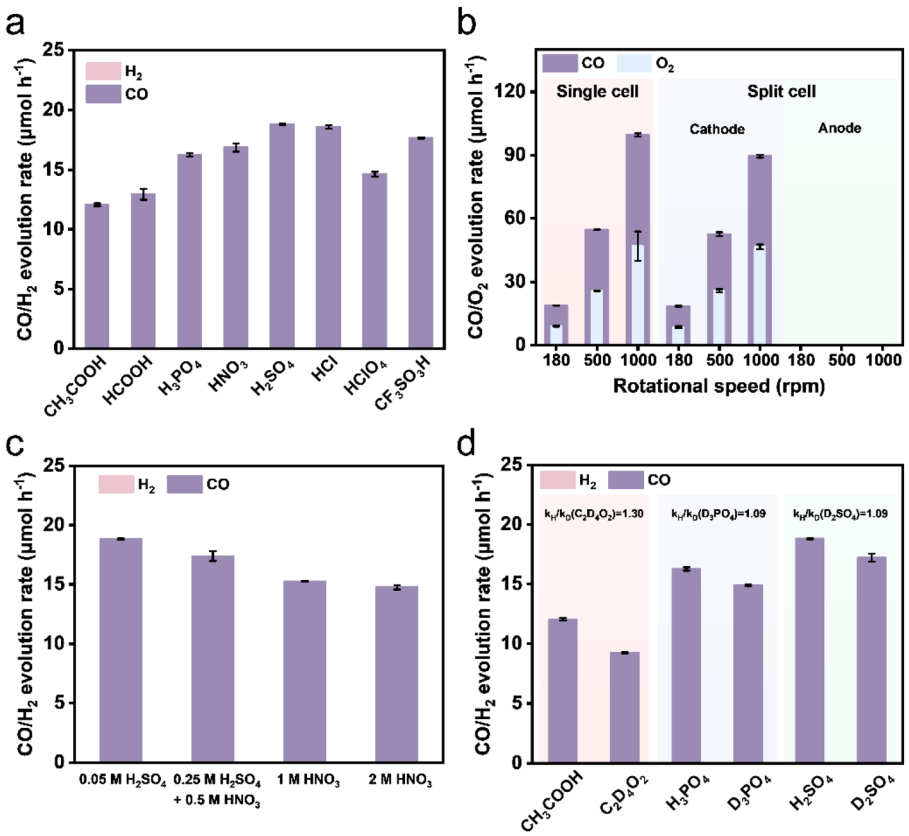

Fig. 5 Insight into the CO_2RR in strong acids. (a) CO/H_2 evolution rate *versus* acids at the same concentration of H^+. (b) CO/O_2 evolution rate in a single or split cell *versus* TENG rotational speed. (c) CO/H_2 evolution rate *versus* nitrate concentration. (d) CO/H_2 evolution rate *versus* H/D-labeled acid.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
