Correction for "A novel *in situ* methodology for U–Pb, (U–Th)/He, and fission track triple dating" by Jie Hu *et al.*, *J. Anal. At. Spectrom.*, 2024, **39**, 2856–2869, <https://doi.org/10.1039/D4JA00257A>.

[rsc.li/jaas](https://rsc.li/jaas)

The authors regret an omission in the references as the work by Danišik should have been cited in the introduction. The sentence "There is no existing *in situ* triple dating workflow for apatite yet" is incorrect and should be:

"While a preliminary workflow for *in situ* apatite triple dating has been described,<sup>1</sup> we have substantially advanced the methodology and provide detailed workflows and validation data for five large apatite crystals, including both reference and non-reference material."

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
